SECURITIES AND EXCHANGE COMMISSION**

WASHINGTON, D.C. 20549

FORM 10-Q

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the quarterly period ended **March 31, 2013**

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number **1-278**

EMERSON ELECTRIC CO.

(Exact name of registrant as specified in its charter)

Missouri

(State or other jurisdiction of
incorporation or organization)

43-0259330

(I.R.S. Employer
Identification No.)

8000 W. Florissant Ave.

P.O. Box 4100

St. Louis, Missouri

(Address of principal executive offices)

63136

(Zip Code)

Registrant's telephone number, including area code: **(314) 553-2000**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. Common stock of \$0.50 par value per share outstanding at April 30, 2013: 718,862,630 shares.

Notes to Consolidated Financial Statements

1. In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments necessary for a fair presentation of operating results for the interim periods presented. Adjustments consist of normal and recurring accruals. The consolidated financial statements are presented in accordance with the requirements of Form 10-Q and consequently do not include all disclosures required for annual financial statements presented in conformity with U.S. generally accepted accounting principles (GAAP). For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended September 30, 2012.

Effective October 1, 2012, the Company adopted updates to ASC 220, Comprehensive Income, and now presents comprehensive income as a separate financial statement immediately following the statement of earnings. This update does not change the items reported in other comprehensive income or when those items should be reclassified into earnings. Effective first quarter 2014, additional disclosures will be required for the Statement of Comprehensive Income, including presenting reclassifications out of accumulated other comprehensive income by income statement line items.

2. Reconciliations of weighted average shares for basic and diluted earnings per common share follow (in millions). Earnings allocated to participating securities were inconsequential.

	Three Months Ended March 31,		Six Months Ended March 31,	
	2012	2013	2012	2013
Basic shares outstanding	732.7	720.5	733.5	721.4
Dilutive shares	4.1	4.8	4.0	4.7
Diluted shares outstanding	736.8	725.3	737.5	726.1

3. Other Financial Information (in millions):

	Sept 30, 2012	Mar 31, 2013
<u>Inventories</u>		
Finished products	\$ 747	848
Raw materials and work in process	1,378	1,479
Total	<u>\$ 2,125</u>	<u>2,327</u>
<u>Property, plant and equipment, net</u>		
Property, plant and equipment, at cost	\$ 8,934	9,083
Less: Accumulated depreciation	5,425	5,602
Total	<u>\$ 3,509</u>	<u>3,481</u>
<u>Goodwill by business segment</u>		
Process Management	\$ 2,379	2,366
Industrial Automation	1,338	1,347
Network Power	3,367	3,354
Climate Technologies	501	503
Commercial & Residential Solutions	441	437
Total	<u>\$ 8,026</u>	<u>8,007</u>

Changes in goodwill since September 30, 2012 are primarily due to foreign currency translation.

	Sept 30, 2012	Mar 31, 2013
<u>Accrued expenses include the following:</u>		
Employee compensation	\$ 642	553
Customer advanced payments	\$ 380	413
Product warranty	\$ 187	176
<u>Other liabilities</u>		
Pension plans	\$ 818	716
Deferred income taxes	592	629
Postretirement plans, excluding current portion	337	334
Other	709	668
Total	<u>\$ 2,456</u>	<u>2,347</u>

4. Following is a discussion regarding the Company's use of financial instruments:

Hedging Activities – As of March 31, 2013, the notional amount of foreign currency hedge positions was approximately \$1.5 billion while commodity hedge contracts totaled approximately 68 million pounds (\$195 million) of copper and aluminum. All derivatives receiving deferral accounting are cash flow hedges. The majority of hedging gains and losses deferred as of March 31, 2013 are expected to be recognized over the next 12 months as the underlying forecasted transactions occur. Gains and losses on foreign currency derivatives reported in other deductions, net reflect hedges of balance sheet exposures that do not receive deferral accounting. The following amounts are included in earnings and other comprehensive income (OCI) for the three and six months ended March 31, 2013 and 2012 (in millions):

		Gain (Loss) to Earnings				Gain (Loss) to OCI			
		2nd Quarter		Six Months		2nd Quarter		Six Months	
		2012	2013	2012	2013	2012	2013	2012	2013
	Location								
Commodity	Cost of sales	\$ (11)	(1)	(22)	(4)	29	(11)	50	(16)
Foreign currency	Sales, cost of sales	4	7	4	11	30	13	41	15
Foreign currency	Other deductions, net	8	(9)	15	—				
Total		<u>\$ 1</u>	<u>(3)</u>	<u>(3)</u>	<u>7</u>	<u>59</u>	<u>2</u>	<u>91</u>	<u>(1)</u>

Regardless of whether derivatives receive deferral accounting, the Company expects hedging gains or losses to be essentially offset by losses or gains on the related underlying exposures. The amounts ultimately recognized will differ from those presented above for open positions, which remain subject to ongoing market price fluctuations until settlement. Derivatives receiving deferral accounting are highly effective and no amounts were excluded from the assessment of hedge effectiveness. Hedge ineffectiveness was immaterial for the three and six months ended March 31, 2013 and 2012.

Fair Value Measurements – Valuations for all derivatives and the Company's long-term debt fall within Level 2 of the GAAP valuation hierarchy. At March 31, 2013, the fair value of commodity contracts and foreign currency contracts were reported in other current assets and accrued expenses. There was no collateral posted with counterparties as of March 31, 2013. The maximum collateral that could have been required was \$11 million. As of March 31, 2013, the fair value of long-term debt was \$5,232 million which exceeded the carrying value by \$656 million. Valuations of derivative contract positions are summarized below (in millions):

	September 30, 2012		March 31, 2013	
	Assets	Liabilities	Assets	Liabilities
Foreign Currency	\$ 31	8	39	8
Commodity	\$ 9	7	—	11

5. The change in equity for the first six months of 2013 is shown below (in millions):

	Common Stockholders' Equity	Noncontrolling Interests in Subsidiaries	Total Equity
September 30, 2012	\$ 10,295	147	10,442
Net earnings	1,015	29	1,044
Other comprehensive income (loss)	23	(6)	17
Cash dividends	(593)	(28)	(621)
Net treasury stock purchases and other	(208)	—	(208)
March 31, 2013	<u>\$ 10,532</u>	<u>142</u>	<u>10,674</u>

6. Total periodic pension and postretirement expense is summarized below (in millions):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2012	2013	2012	2013
Service cost	\$ 20	27	42	53
Interest cost	59	57	119	113
Expected return on plan assets	(79)	(83)	(159)	(166)
Net amortization	43	58	86	116
Total	<u>\$ 43</u>	<u>59</u>	<u>88</u>	<u>116</u>

Higher expense reflects a lower discount rate at the end of 2012.

7. Other deductions, net are summarized below (in millions):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2012	2013	2012	2013
Amortization of intangibles	\$ 57	54	115	113
Rationalization of operations	31	16	54	32
Other	22	(10)	33	1
Gains, net	(5)	(1)	(7)	(1)
Total	<u>\$ 105</u>	<u>59</u>	<u>195</u>	<u>145</u>

The decreases in Other for the second quarter and six months ended March 31, 2013 are primarily due to foreign currency transaction losses in the prior year compared to gains in the current year.

8. Rationalization of operations expense reflects costs associated with the Company's efforts to continually improve operational efficiency and deploy assets globally in order to remain competitive on a worldwide basis. Details of the change in the liability for rationalization during the six months ended March 31, 2013 follow (in millions):

	Sept 30, 2012	Expense	Paid/Utilized	Mar 31, 2013
Severance and benefits	\$ 23	13	17	19
Lease and other contract terminations	5	2	2	5
Vacant facility and other shutdown costs	3	4	5	2
Start-up and moving costs	1	13	13	1
Total	<u>\$ 32</u>	<u>32</u>	<u>37</u>	<u>27</u>

Rationalization of operations expense by segment is summarized below (in millions):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2012	2013	2012	2013
Process Management	\$ 4	4	9	7
Industrial Automation	4	5	8	10
Network Power	16	5	26	9
Climate Technologies	4	1	6	2
Commercial & Residential Solutions	3	1	5	4
Total	\$ 31	16	54	32

The Company expects to incur full year 2013 rationalization expense of approximately \$75 million to \$85 million. This includes the \$32 million incurred to date, as well as costs to complete actions initiated before the end of the second quarter and actions anticipated to be approved and initiated during the remainder of the year. Severance and benefits costs are associated with forcecount reduction, mainly for Industrial Automation in Asia and North America and Network Power in Asia. Start-up and moving costs to redeploy assets to best cost locations and expand geographically to directly serve local markets were incurred in all segments.

9. Summarized information about the Company's results of operations by business segment follows (in millions):

	Three Months Ended March 31,				Six Months Ended March 31,			
	Sales		Earnings		Sales		Earnings	
	2012	2013	2012	2013	2012	2013	2012	2013
Process Management	\$ 1,869	2,020	341	403	3,396	3,916	531	736
Industrial Automation	1,284	1,213	203	186	2,513	2,350	385	350
Network Power	1,549	1,481	134	111	3,044	2,940	256	216
Climate Technologies	926	988	158	175	1,659	1,740	258	276
Commercial & Residential Solutions	475	457	100	98	932	910	197	195
	6,103	6,159	936	973	11,544	11,856	1,627	1,773
Differences in accounting methods			55	54			104	104
Corporate and other			(119)	(139)			(248)	(262)
Eliminations/Interest	(184)	(199)	(58)	(57)	(316)	(343)	(116)	(111)
Total	\$ 5,919	5,960	814	831	11,228	11,513	1,367	1,504

Industrial Automation intersegment sales for the second quarters ended March 31, 2013 and 2012 were \$177 million and \$163 million, respectively, and year-to-date, \$298 million and \$273 million. The increase in corporate and other for both the second quarter and year-to-date reflects higher incentive stock compensation expense due to the overlap of two performance shares plans.

10. In the fourth quarter of 2012, the Company recognized an impairment charge of \$450 million due to protracted weak demand and structural industry developments in the embedded computing and power business which had annual sales of \$1.4 billion. Management considered strategic alternatives, initiated a sale process, and non-binding indications of interest were received in the third quarter of 2013. The Company will pursue negotiation of a transaction and a decision will be made whether to sell the business, subject to Board approval. Depending on the ultimate outcome of the process, it is possible the Company could recognize an impairment charge, or loss on the sale of the business along with an income tax charge related to potential repatriation of earnings which have been permanently reinvested in the business.

Items 2 and 3.

Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

Second quarter sales were \$6 billion, up 1 percent, and net earnings were \$561 million, up 3 percent, reflecting slight growth in the U.S. and modest growth in Asia. Europe remained soft. Growth was strong in Middle East/Africa and Latin America. Overall, results reflect a sluggish global economy struggling to gain momentum and direction. Forecasts are for modest growth in global gross fixed investment, while weakness in Europe is expected to persist.

Process Management reported sales and earnings growth largely driven by demand in global energy markets. Sales and earnings increased for Climate Technologies, primarily reflecting U.S. and Asia air conditioning growth. Demand in U.S. residential end markets supported underlying sales growth in Commercial & Residential Solutions. Sales and earnings decreased for Industrial Automation on weakness in capital goods end markets, particularly in Europe. Network Power sales decreased due to a sharp decline in embedded computing and power and softness in the network power systems business.

RESULTS OF OPERATIONS

Following is an analysis of the Company's operating results for the second quarter ended March 31, 2013, compared with the second quarter ended March 31, 2012.

<u>Three Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions, except per share amounts)			
Net sales	\$ 5,919	5,960	1%
Gross profit	\$ 2,336	2,373	2%
Percent of sales	39.5%	39.8%	
SG&A	\$ 1,359	1,426	
Percent of sales	23.0%	23.9%	
Other deductions, net	\$ 105	59	
Interest expense, net	\$ 58	57	
Earnings before income taxes	\$ 814	831	2%
Percent of sales	13.8%	13.9%	
Net earnings common stockholders	\$ 545	561	3%
Percent of sales	9.2%	9.4%	
Diluted EPS – Net earnings	\$ 0.74	0.77	4%

Net sales for the second quarter of 2013 were \$5,960 million, an increase of \$41 million or 1 percent, compared with \$5,919 million in 2012. Underlying sales increased 2 percent (\$92 million) from volume growth and exclude the negative impact from divestitures of 0.5 percent or \$27 million, and foreign currency translation of 0.5 percent or \$24 million. Sales increased 1 percent in the U.S. and 2 percent internationally. Asia was up 2 percent, Middle East/Africa was up 19 percent and Latin America was up 8 percent. Europe declined 3 percent and Canada was flat. Segment results were mixed as sales grew \$151 million in Process Management and \$62 million in Climate Technologies, and decreased \$71 million in Industrial Automation, \$68 million in Network Power, and \$18 million in Commercial & Residential Solutions due to the prior year divestiture of Knaack.

Cost of sales in 2013 were \$3,587 million, resulting in gross profit of \$2,373 million and gross margin of 39.8 percent. Cost of sales in 2012 were \$3,583 million, resulting in gross profit of \$2,336 million and gross margin of 39.5 percent. Gross profit and margin increases primarily reflect higher volume, savings from cost reduction actions and materials cost containment. Product mix and pension expense were unfavorable.

Selling, general and administrative (SG&A) expenses of \$1,426 million increased \$67 million compared with prior year. SG&A as a percent of sales was 23.9 percent in 2013, a 0.9 percentage point increase versus 2012. The

increase in SG&A primarily reflects costs associated with higher volume, an increase in incentive stock compensation of \$16 million from the overlap of two performance shares plans, and other costs. SG&A as a percent of sales increased due to deleverage on volume declines in Network Power and Industrial Automation, and the higher other costs.

Other deductions, net were \$59 million in 2013, a decrease of \$46 million versus prior year due to lower rationalization expense and favorable foreign currency transaction costs. See Notes 7 and 8 for details regarding other deductions, net and rationalization.

Pretax earnings of \$831 million increased \$17 million, or 2 percent. Earnings primarily reflect increases of \$62 million in Process Management and \$17 million in Climate Technologies, partially offset by decreases of \$23 million in Network Power and \$17 million in Industrial Automation.

Income taxes were \$253 million for 2013 and \$258 million for 2012, resulting in effective tax rates of 31 percent and 32 percent, respectively. The effective tax rate for full year 2013 is estimated at approximately 31 percent.

Net earnings common stockholders in 2013 were \$561 million, an increase of 3 percent. Net earnings per share were \$0.77, an increase of 4 percent. The increases in earnings and earnings per share reflect operating results and the repurchase of common shares.

BUSINESS SEGMENTS

Following is an analysis of operating results for the Company's business segments for the second quarter ended March 31, 2013, compared with the second quarter ended March 31, 2012. The Company defines segment earnings as earnings before interest and taxes.

Process Management

<u>Three Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 1,869	2,020	8%
Earnings	\$ 341	403	18%
Margin	18.3%	20.0%	

Process Management sales increased \$151 million, reflecting continued demand in global oil and gas, chemicals and power end markets. Strong growth across the measurement and control, final controls, and systems and solutions businesses was aided by favorable comparisons from the supply chain disruption in the prior year. Underlying sales grew 9 percent on higher volume, and foreign currency translation subtracted 1 percent (\$8 million). Internationally, underlying growth was strong, with Asia up 14 percent and Europe up 7 percent, while Middle East/Africa was up 36 percent, Latin America up 13 percent and Canada up 10 percent. Sales in the U.S. were down 1 percent. Earnings increased \$62 million and margin expanded 170 basis points, benefiting from higher volume and related leverage, partially offset by unfavorable product mix. Foreign currency transactions were \$43 million favorable due to gains in 2013 compared to losses in the prior year.

Industrial Automation

<u>Three Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 1,284	1,213	(6)%
Earnings	\$ 203	186	(8)%
Margin	15.8%	15.4%	

Industrial Automation sales decreased \$71 million on declines in most businesses reflecting weakness in capital goods end markets, particularly in Europe. The decrease was most pronounced in the power generating alternators and industrial motors business and electrical drives. Growth was strong in the hermetic motors business, driven by HVAC compressor demand. Reported and underlying sales were both down 6 percent on lower volume. Underlying

sales decreased 15 percent in Europe, 1 percent in the U.S. and 3 percent in Asia. Sales were up 11 percent in Latin America and flat in Middle East/Africa. Earnings decreased \$17 million and margin declined 40 basis points on the lower volume and related deleverage and prior year payments received related to dumping duties, partially offset by materials cost containment.

Network Power

<u>Three Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 1,549	1,481	(4)%
Earnings	\$ 134	111	(17)%
Margin	8.6%	7.5%	

Sales for Network Power decreased \$68 million or 4 percent, due to softness in global telecommunications and information technology end markets. The sales decrease included 3 percent lower volume and 1 percent from lower pricing. These results were primarily due to a sharp decline in embedded computing and power, reflecting product line rationalization and lower end market demand. The network power systems business was down slightly, with decreases in the uninterruptible power supplies, telecommunications-related power and precision cooling businesses partially offset by growth in inbound power. Underlying segment sales were down 6 percent in Asia (on the decline in embedded computing and power), 2 percent in the U.S., 3 percent in Europe, 23 percent in Canada and 10 percent in Middle East/Africa, partially offset by 8 percent growth in Latin America. Earnings decreased \$23 million and margin contracted 110 basis points on the lower sales, deleverage and higher other costs, partially offset by materials cost containment and \$11 million lower rationalization expense.

Climate Technologies

<u>Three Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 926	988	7%
Earnings	\$ 158	175	11%
Margin	17.1%	17.7%	

Climate Technologies sales increased \$62 million driven by strong growth in the compressors business and solid growth in temperature controls and sensors. Global air conditioning sales growth was strong, particularly in the U.S., Asia and Europe. Refrigeration sales declined sharply, primarily from weakness in transportation. Overall, underlying sales increased 7 percent on volume growth. The increase was led by 8 percent growth in the U.S., 8 percent in Europe, 4 percent in Asia and 26 percent in Middle East/Africa. Sales decreased 5 percent in Latin America. Earnings increased \$17 million on higher volume in the compressors business. Margin increased 60 basis points on volume leverage, savings from cost reduction actions and materials cost containment. Product mix was unfavorable.

Commercial & Residential Solutions

<u>Three Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 475	457	(4)%
Earnings	\$ 100	98	(3)%
Margin	21.0%	21.3%	

Sales for Commercial & Residential Solutions decreased 4 percent (\$18 million), reflecting a negative 6 percent (\$27 million) impact from the prior year Knaack divestiture. Underlying sales grew 2 percent (\$9 million) on volume increases. Growth in the storage and food waste disposers businesses was slightly offset by a small decrease in professional tools. Underlying sales increased 5 percent in the U.S. and decreased 7 percent internationally.

Earnings declined \$2 million as the benefits from higher volume and cost containment actions were more than offset by the comparative effect of \$4 million of Knaack earnings in the prior year. Margin increased 30 basis points.

RESULTS OF OPERATIONS

Following is an analysis of the Company's operating results for the six months ended March 31, 2013, compared with the six months ended March 31, 2012.

Six Months Ended March 31

(dollars in millions, except per share amounts)

	<u>2012</u>	<u>2013</u>	<u>Change</u>
Net sales	\$ 11,228	11,513	3%
Gross profit	\$ 4,391	4,580	4%
Percent of sales	39.1%	39.8%	
SG&A	\$ 2,713	2,820	
Percent of sales	24.2%	24.5%	
Other deductions, net	\$ 195	145	
Interest expense, net	\$ 116	111	
Earnings before income taxes	\$ 1,367	1,504	10%
Percent of sales	12.2%	13.1%	
Net earnings common stockholders	\$ 916	1,015	11%
Percent of sales	8.2%	8.8%	
Diluted EPS – Net earnings	\$ 1.24	1.39	12%

Net sales for the first six months of 2013 were \$11,513 million, an increase of \$285 million or 3 percent, compared with \$11,228 million in 2012. Sales growth was flat excluding the estimated impact of the supply chain disruption from Thailand flooding in the prior year. Underlying sales increased 4 percent (\$386 million) from volume growth. Foreign currency translation subtracted 0.5 percent (\$52 million) and divestitures had a negative 0.5 percent (\$49 million) impact. Sales increased 3 percent in the U.S. and 4 percent internationally. Asia was up 4 percent, including China up 2 percent. Middle East/Africa was up 20 percent, Latin America was up 13 percent and Canada was up 3 percent. Europe was down 3 percent. Segment results were mixed as sales grew \$520 million in Process Management and \$81 million in Climate Technologies, and decreased \$163 million in Industrial Automation, \$104 million in Network Power, and \$22 million in Commercial & Residential Solutions due to the Knaack divestiture.

Cost of sales for 2013 were \$6,933 million, resulting in gross profit of \$4,580 million and gross margin of 39.8 percent. Cost of sales for 2012 were \$6,837 million, resulting in gross profit of \$4,391 million and gross margin of 39.1 percent. The increases in gross profit and margin primarily reflect higher volume, savings from cost reduction actions and materials cost containment. Product mix and pension expense were unfavorable.

SG&A expenses of \$2,820 million increased \$107 million compared with prior year. SG&A as a percent of sales was 24.5 percent in 2013, a 0.3 percentage point increase versus 24.2 percent in 2012. The increase in SG&A primarily reflects costs associated with higher volume and \$38 million of higher incentive stock compensation from the overlap of two performance shares plans, partially offset by a \$17 million charge in 2012 related to post-65 supplemental retiree medical benefits. SG&A as a percent of sales increased due to business mix and the other costs.

Other deductions, net were \$145 million in 2013, a decrease of \$50 million versus prior year. See Notes 7 and 8 for details regarding other deductions, net and rationalization costs.

Pretax earnings of \$1,504 million increased \$137 million, or 10 percent. Earnings primarily reflect increases of \$205 million in Process Management and \$18 million in Climate Technologies, partially offset by decreases of \$40 million in Network Power and \$35 million in Industrial Automation.

Income taxes were \$460 million for 2013 and \$430 million for 2012, resulting in effective tax rates of 31 percent for both periods.

Net earnings common stockholders in 2013 were \$1,015 million, an increase of 11 percent. Net earnings per share were \$1.39, an increase of 12 percent. The increases in earnings and earnings per share reflect improved operating results and the repurchase of common shares.

BUSINESS SEGMENTS

Following is an analysis of operating results for the Company's business segments for the six months ended March 31, 2013, compared with the six months ended March 31, 2012. The Company defines segment earnings as earnings before interest and taxes.

Process Management

<u>Six Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 3,396	3,916	15%
Earnings	\$ 531	736	39%
Margin	15.6%	18.8%	

Process Management sales increased \$520 million, reflecting continued demand in global oil and gas, chemicals and power markets. Robust growth across the measurement and control, systems and solutions, and final controls businesses includes favorable comparisons due to the supply chain disruption in the prior year and solid end market demand. Underlying sales increased 16 percent and foreign currency translation subtracted 1 percent (\$10 million). Underlying growth was strong in all regions, including 11 percent in the U.S., 9 percent in Europe, 19 percent in Asia, 36 percent in Middle East/Africa, 27 percent in Latin America and 15 percent in Canada. Earnings increased \$205 million and margin expanded 320 basis points, benefiting from the higher volume and significant leverage. The benefit of cost reduction actions was offset by unfavorable product mix. Foreign currency transactions were \$36 million favorable compared to the prior year.

Industrial Automation

<u>Six Months Ended March 31</u>	<u>2012</u>	<u>2013</u>	<u>Change</u>
(dollars in millions)			
Sales	\$ 2,513	2,350	(6)%
Earnings	\$ 385	350	(9)%
Margin	15.3%	14.9%	

Industrial Automation sales decreased \$163 million, reflecting weakness in capital goods end markets, particularly Europe. Declines in the power generating alternators and industrial motors business and electrical drives were partially offset by strong growth in the hermetic motors business on HVAC compressor demand. Underlying sales were down 5 percent on lower volume, including 12 percent in Europe, 4 percent in the U.S. and 5 percent in Asia. Sales were up 10 percent in Latin America and 2 percent in Middle East/Africa. Foreign currency translation deducted 1 percent (\$23 million). Earnings decreased \$35 million and margin decreased 40 basis points on the lower volume, deleverage and other costs. Savings from cost reduction actions and materials cost containment partially offset the earnings decline.

Network PowerSix Months Ended March 31

(dollars in millions)

	<u>2012</u>	<u>2013</u>	<u>Change</u>
Sales	\$ 3,044	2,940	(3)%
Earnings	\$ 256	216	(16)%
Margin	8.4%	7.3%	

Sales for Network Power decreased \$104 million or 3 percent, reflecting continued softness in global telecommunications and information technology end markets. The sales decrease includes 2 percent from lower volume and 1 percent from price. These results were primarily due to a sharp decline in embedded computing and power, reflecting product line rationalization and lower end market demand. The network power systems business was down modestly on mixed results. Decreases in the precision cooling, uninterruptible power supplies and telecommunications-related power businesses were partially offset by growth in inbound power. Underlying segment sales grew 8 percent in Latin America. Sales were down 1 percent in the U.S., 4 percent in Asia, 6 percent in Europe, 19 percent in Canada and 7 percent in Middle East/Africa. Earnings decreased \$40 million and margin contracted 110 basis points. The lower sales, deleverage and higher other costs were partially offset by savings from cost reduction actions, materials cost containment and \$17 million lower rationalization expense.

Climate TechnologiesSix Months Ended March 31

(dollars in millions)

	<u>2012</u>	<u>2013</u>	<u>Change</u>
Sales	\$ 1,659	1,740	5%
Earnings	\$ 258	276	7%
Margin	15.5%	15.9%	

Climate Technologies sales increased \$81 million as a solid increase in the compressors business was partially offset by a decrease in temperature controls. The temperature sensors business was flat. Global air conditioning sales growth was strong, particularly in the U.S. and Asia. Europe air conditioning was up moderately. Refrigeration sales declined sharply. Underlying sales grew 5 percent on volume increases, including 5 percent in the U.S., 6 percent in both Asia and Europe, and 28 percent in Middle East/Africa. Sales decreased 5 percent in Latin America. Earnings increased \$18 million on higher volume in the compressors business. Margin increased 40 basis points on savings from cost reduction actions and materials cost containment, partially offset by unfavorable product mix.

Commercial & Residential SolutionsSix Months Ended March 31

(dollars in millions)

	<u>2012</u>	<u>2013</u>	<u>Change</u>
Sales	\$ 932	910	(2)%
Earnings	\$ 197	195	(1)%
Margin	21.1%	21.4%	

Sales for Commercial & Residential Solutions decreased 2 percent (\$22 million), reflecting a negative 5 percent (\$49 million) impact from the prior year Knaack divestiture. Underlying sales grew 3 percent (\$27 million) on volume increases. Moderate sales growth in storage and food waste disposers was partially offset by a slight decrease in the tools businesses. Underlying sales increased 6 percent in the U.S. and decreased 6 percent internationally. Earnings decreased \$2 million, while margin increased 30 basis points. Earnings from higher volume and savings from cost reduction actions were offset by \$5 million of prior year Knaack earnings and other costs.

FINANCIAL CONDITION

Key elements of the Company's financial condition for the six months ended March 31, 2013 as compared to the year ended September 30, 2012.

	Sept 30, 2012	Mar 31, 2013
Working capital (in millions)	\$ 2,993	3,545
Current ratio	1.4 to 1	1.5 to 1
Total debt-to-total capital	34.0%	34.5%
Net debt-to-net capital	22.1%	21.8%
Interest coverage ratio	13.9X	13.8X

The Company's interest coverage ratio (earnings before income taxes plus interest expense, divided by interest expense) was 13.8X for the first six months of 2013 compared to 12.0X in the prior year. The increase is primarily due to higher earnings.

During the second quarter of 2013, the Company issued \$500 million of 2.625% notes due February 2023 under an automatic shelf registration statement on file with the Securities and Exchange Commission. The net proceeds from the sale of the notes were used for general corporate purposes and to repay commercial paper borrowings.

Cash provided by operating activities of \$1,151 million increased \$255 million, or 29 percent, compared with \$896 million in the prior year period, primarily due to higher earnings and lower working capital growth. Operating cash flow funded capital expenditures of \$235 million, dividends of \$593 million and treasury stock purchases of \$271 million. Long-term debt payments were \$270 million. For the first six months of 2013, free cash flow of \$916 million (operating cash flow of \$1,151 million less capital expenditures of \$235 million) was up \$307 million from free cash flow of \$609 million (operating cash flow of \$896 million less capital expenditures of \$287 million) in 2012. Overall, cash and equivalents increased \$248 million during the first six months of 2013.

Emerson maintains a conservative financial structure which provides the strength and flexibility necessary to achieve its strategic objectives. The Company has been able to readily meet all its funding requirements and currently believes that sufficient funds will be available to meet the Company's needs in the foreseeable future through ongoing operations, existing resources, short- and long-term debt capacity or backup credit lines. These resources allow Emerson to reinvest in existing businesses, pursue strategic acquisitions and manage its capital structure on a short- and long-term basis.

FISCAL 2013 OUTLOOK

Business investment remains slow and cautious globally, and there is no clear catalyst to improve global economic growth over the next 6 to 9 months. Near term end market demand is expected to reflect this uncertainty. Demand for capital goods is expected to remain challenging in the second half of 2013, particularly in Europe. Modest growth is expected to continue in residential end markets. Based on the current business environment, reported and underlying sales growth in 2013 is now expected to be only 1.5 percent to 2.5 percent, with EBIT and pretax margin approximately equal to the prior year (excluding the 2012 goodwill impairment impact of 240 basis points). Earnings per share are expected to be in the range of \$3.48 to \$3.58. The Company is targeting operating cash flow of approximately \$3.3 billion to \$3.4 billion and capital expenditures of approximately \$0.7 billion.

Statements in this report that are not strictly historical may be "forward-looking" statements, which involve risks and uncertainties, and Emerson undertakes no obligation to update any such statements to reflect later developments. These risks and uncertainties include economic and currency conditions, market demand, pricing, protection of intellectual property, and competitive and technological factors, among others which are set forth in the "Risk Factors" of Part I, Item 1, and the "Safe Harbor Statement" of Exhibit 13, to the Company's Annual Report on Form 10-K for the year ended September 30, 2012, which are hereby incorporated by reference.

Item 4. Controls and Procedures

The Company maintains a system of disclosure controls and procedures designed to ensure that information required to be disclosed in its reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported in a timely manner. This system also is designed to ensure information is accumulated and communicated to management, including the Company's certifying officers, to allow timely decisions regarding required disclosure. Based on an evaluation performed, the certifying officers have concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report.

Notwithstanding the foregoing, there can be no assurance that the Company's disclosure controls and procedures will detect or uncover all failures of persons within the Company and its consolidated subsidiaries to report material information otherwise required to be set forth in the Company's reports.

There was no change in the Company's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(c) Issuer Purchases of Equity Securities (shares in 000s).

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs</u>
January 2013	870	\$55.49	870	11,235
February 2013	850	\$57.52	850	10,385
March 2013	1,050	\$56.40	1,050	9,335
Total	<u>2,770</u>	<u>\$56.46</u>	<u>2,770</u>	<u>9,335</u>

The Company's Board of Directors authorized the repurchase of up to 80 million shares under the May 2008 program. The above table does not reflect a new program approved by the Board of Directors on May 7, 2013 for the repurchase of up to 70 million additional shares.

Item 6. Exhibits

(a) Exhibits (Listed by numbers corresponding to the Exhibit Table of Item 601 in Regulation S-K).

- 3.1 Bylaws of Emerson Electric Co., as amended through April 2, 2013, incorporated by reference to the Company's Form 8-K dated April 2, 2013, filed on April 8, 2013, Exhibit 3.1.
- 4 Emerson agrees to furnish to the Securities and Exchange Commission, upon request, copies of any long term debt instruments that authorize an amount of securities constituting 10% or less of the total assets of Emerson and its subsidiaries on a consolidated basis.
- 10.1 Letter Agreement effective as of February 5, 2013 by and between Emerson Electric Co. and Walter J. Galvin, incorporated by reference to the Company's Form 8-K dated February 5, 2013 and filed February 8, 2013, Exhibit 10.1.
- 10.2 Consulting Agreement made and entered into as of February 5, 2013 by and between Emerson Electric Co. and Walter J. Galvin, incorporated by reference to the Company's Form 8-K dated February 5, 2013 and filed February 8, 2013, Exhibit 10.2.
- 12 Ratio of Earnings to Fixed Charges.
- 31 Certifications pursuant to Exchange Act Rule 13a-14(a).
- 32 Certifications pursuant to Exchange Act Rule 13a-14(b) and 18 U.S.C. Section 1350.
- 101 Attached as Exhibit 101 to this report are the following documents formatted in XBRL (Extensible Business Reporting Language): (i) Consolidated Statements of Earnings for the three and six months ended March 31, 2012 and 2013, (ii) Consolidated Statements of Comprehensive Income for the three and six months ended March 31, 2012 and 2013, (iii) Consolidated Balance Sheets at September 30, 2012 and March 31, 2013, (iv) Consolidated Statements of Cash Flows for the six months ended March 31, 2012 and 2013, and (v) Notes to Consolidated Financial Statements for the three and six months ended March 31, 2013.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATION PURSUANT TO
EXCHANGE ACT RULE 13a-14(b) AND
18 U.S.C. SECTION 1350

In connection with the Quarterly Report of Emerson Electric Co. (the "Company") on Form 10-Q for the period ended March 31, 2013, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, F. J. Dellaquila, certify, to the best of my knowledge, pursuant to Exchange Act Rule 13a-14(b) and 18 U.S.C. Section 1350, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ F. J. Dellaquila

F. J. Dellaquila
Executive Vice President and
Chief Financial Officer
Emerson Electric Co.
