Item 2.02 Results of Operations and Financial Condition

In connection with the strategic portfolio repositioning actions undertaken over the last eighteen months to transform Emerson Electric Co. (the "Company") into a more focused enterprise, its businesses and organization were realigned into two business platforms: Automation Solutions and Commercial & Residential Solutions. The repositioning actions included the sale of the Company's network power systems business, which was completed on November 30, 2017, and the sale of the power generation, motors and drives businesses, which were included in the former Industrial Automation segment, and which is expected to be completed early in calendar year 2017, subject to regulatory approvals. These businesses were reported in discontinued operations in the Company's most recent Form 10-K for the year ended September 30, 2016.

Beginning in fiscal 2017, the Company will report three segments: Automation Solutions, and Climate Technologies and Tools & Home Products which together comprise Commercial & Residential Solutions. The new Automation Solutions segment includes the former Process Management segment and the remaining businesses in the former Industrial Automation segment, except for the hermetic motors business, which is now included in the Climate Technologies segment. The new Tools & Home Products segment consists of the businesses previously reported in the Commercial & Residential Solutions segment in fiscal 2016.

The Company is providing the supplemental unaudited historical results for the new segments to facilitate investors' understanding of segment results that will be reported in fiscal 2017. The information in Exhibit 99.1 does not represent a restatement of previously issued financial statements and should be read in conjunction with the Company's Annual Report on Form 10-K.
