Item 7.01 Regulation FD Disclosure

The following information is furnished pursuant to Regulation FD.

Emerson 3-Month Orders

(Percentage change versus prior year; trailing 3-month averages, excluding acquisitions and divestitures, including currency translation)

	<u>December '16</u>	<u>January '17</u>	<u>February '17</u>
Automation Solutions	-10 to -5	0	0
Commercial & Residential Solutions	5 to 10	0 to 5	0 to 5
Total Emerson	-5 to 0	0 to 5	0 to 5

February 2017 Orders Comments

Trailing three-month orders increased 2 percent and underlying orders were up 1 percent, excluding favorable currency translation.

Automation Solutions orders were flat reflecting the continuation of favorable capital and MRO spending in energy related and general industrial markets. Underlying trailing three-month orders were down low-single digits, but improved slightly versus January. Order trends by region were mixed, with North America and Asia reflecting growth while all other regions were down. In North America, oil and gas activity, both upstream and midstream, continues to trend favorably led by MRO spending. Growth in Asia reflects the continued stabilization of overall market conditions in key countries across the region. Globally, life sciences and power markets remain favorable. Currency translation added 1 percent.

Commercial & Residential Solutions orders increased mid-single digits reflecting steady demand in North American air conditioning as well as solid growth in Asia, including China, and Europe. Demand across the remainder of the platform was mixed as strong growth in sensors and controls continued and favorable U.S. construction markets resulted in slight growth in the professional tools business. Currency translation was negligible.

Forward-Looking and Cautionary Statements

Statements in this Current Report on Form 8-K that are not strictly historical may be “forward-looking” statements, which involve risks and uncertainties, and Emerson undertakes no obligation to update any such statements to reflect later developments. These risks and uncertainties include economic and currency conditions, market demand, pricing, protection of intellectual property, and competitive and technological factors, among others, as set forth in the Company's most recent Annual Report on Form 10-K and subsequent reports filed with the SEC.
