USE OF PROCEEDS

Emerson expects to use the net proceeds from the sale of the Notes (estimated at \$249.9 million, before deducting estimated expenses of this offering) to repay a portion of its commercial paper borrowings. Such commercial paper was issued for general corporate purposes and working capital. As of March 11, 1999, such commercial paper had a weighted average interest rate (on a bond-equivalent yield basis) of approximately 5.0% per annum with a weighted average maturity of approximately 37 days.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratios of earnings to fixed charges of the Company for the periods indicated. For purposes of computation of the ratio of earnings to fixed charges, earnings consist of income before income taxes and cumulative effects of changes in accounting principles plus the amount of fixed charges. Fixed charges consist of interest expense and that portion of rental expense deemed to represent interest.

DESCRIPTION OF THE NOTES

The Notes will be issued under an Indenture dated as of December 10, 1998 between Emerson and The Bank of New York, as Trustee. An Officers' Certificate sets forth the terms of the Notes in accordance with the Indenture and limits the Notes to \$250,000,000 aggregate principal amount. Information about the Indenture and the general terms and provisions of the Notes is in the accompanying Prospectus under "Description of the Debt Securities."

The Notes will be issued in book-entry form, as one or more Notes registered in the name of the nominee of The Depository Trust Company, which will act as Depositary. Beneficial interests in book-entry Notes will be shown on, and transfers of the Notes will be made only through, records maintained by the Depositary and its participants. The provisions set forth under "Book-Entry Debt Securities" in the accompanying Prospectus will apply to the Notes. The Notes will mature on March 17, 2000.

PAYMENT OF PRINCIPAL AND INTEREST

The interest rate on the Notes will be 5.125% per annum. Interest will accrue from March 16, 1999. Emerson will pay interest computed on the basis of a 360-day year. At maturity, Emerson will pay the principal, together with interest on the Notes, in immediately available funds.

SAME-DAY SETTLEMENT AND PAYMENT

The Notes will trade in the Depository's same-day funds settlement system until maturity or until Emerson issues the Notes in definitive form. The Depository will therefore require secondary market trading activity in the Notes to settle in immediately available funds. Emerson can give no assurance as to the effect, if any, of settlement in immediately available funds on trading activity in the Notes.

REDEMPTION

Emerson will not have the right to redeem the Notes before their scheduled maturity, and you will not have the right to require Emerson to redeem the Notes before their scheduled maturity. Emerson will not make any sinking fund payments.

GOVERNING LAW

The Notes will be governed by and construed in accordance with the laws of the State of New York.

UNDERWRITING

Emerson is selling the Notes to J.P. Morgan Securities Inc. under a Pricing Agreement dated March 11, 1999. The Underwriter has agreed to purchase from Emerson the entire principal amount of the Notes.

Under the terms and conditions of the Pricing Agreement, if the Underwriter takes any of the Notes, then it is obligated to take and pay for all of the Notes.

The Notes are a new issue of securities with no established trading market. Emerson does not intend to apply for listing of the Notes on any national securities exchange. The Underwriter has advised Emerson that it intends to make a market for the Notes, but it has no obligation to do so. It also may discontinue market making at any time without providing any notice. Emerson cannot give any assurance as to the liquidity of any trading market for the Notes.

The Underwriter proposes to offer the Notes from time to time for sale in one or more negotiated transactions, or otherwise, at market prices prevailing at the time of sale, at prices related to then prevailing prices or at negotiated prices. In connection with the sale of any Notes, the Underwriter may be deemed to have received compensation from Emerson in the form of underwriting discounts. The Underwriter may also receive commissions from the purchasers of the Notes for whom it may act as agent. In addition, the Underwriter may sell the Notes to certain securities dealers. These dealers may receive compensation in the form of underwriting discounts, concessions or commissions from the Underwriter or from purchasers of the Notes for whom they may act as agents, or both. The Underwriter and any dealers that participate with the Underwriter in selling the Notes may be deemed to be underwriters. Any discounts or commissions the Underwriter and any dealers receive and any profit they realize if and when they resell the Notes may be deemed to be underwriting discounts or commissions.

All secondary trading in the Notes will settle in immediately available funds. See "Description of the Notes -- Same-Day Settlement and Payment."

Emerson has agreed to indemnify the Underwriter against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute payments which the Underwriter may be required to make in respect of such liabilities.

Emerson estimates that it will spend approximately \$75,000 for printing, ratings agency, trustee and legal fees, and other expenses related to this offering.

In the ordinary course of their respective businesses, the Underwriter and certain of its affiliates have engaged, and may in the future engage, in commercial banking and/or investment banking transactions with Emerson and its affiliates.

VALIDITY OF THE NOTES

H. M. Smith, Esq., Emerson's Assistant Secretary and Assistant General Counsel, will pass upon the legality of the Notes for Emerson. Davis Polk & Wardwell, 450 Lexington Avenue, New York, New York 10017, will pass upon the legality of the Notes for the Underwriter. Mr. Smith beneficially owns 12,894 shares of Common Stock of the Company and has options to purchase 1,000 shares. Davis Polk & Wardwell will rely on the opinion of Mr. Smith with respect to all matters of Missouri law. Davis Polk & Wardwell acts as counsel to Emerson from time to time with respect to various matters.

DESCRIPTION OF THE DEBT SECURITIES

This section describes some of the general terms of the Debt Securities. The Prospectus Supplement describes the particular terms of the Debt Securities we are offering. The Prospectus Supplement also indicates the extent, if any, to which such general provisions may not apply to the Debt Securities being offered.

We will issue the Debt Securities under an Indenture between us and The Bank of New York, which is serving as Trustee. The Indenture is an exhibit to the Registration Statement. We are summarizing certain important provisions of the Debt Securities and the Indenture. This is not a complete description of the important terms. You should refer to the specific terms of the Indenture for a complete statement of the terms of the Indenture and the Debt Securities. When we use capitalized terms which we don't define here, those terms have the meanings given in the Indenture. When we use references to Sections, we mean Sections in the Indenture.

GENERAL

The Debt Securities will be unsecured obligations of Emerson.

The Indenture does not limit the amount of Debt Securities that we may issue under the Indenture, nor does it limit other debt that we may issue. We may issue the Debt Securities at various times in different series, each of which may have different terms.

The Prospectus Supplement relating to the particular series of Debt Securities we are offering includes the following information concerning those Debt Securities:

- The title of the Debt Securities.
- Any limit on the amount of the Debt Securities that we may offer.
- The price at which are offering the Debt Securities. We will usually express the price as a percentage of the principal amount.
- The maturity date of the Debt Securities.
- The interest rate per annum on the Debt Securities. We may specify a

fixed rate or a variable rate, or we may offer Debt Securities that do not bear interest but are sold at a substantial discount from the amount payable at maturity.

- The date from which interest on the Debt Securities will accrue.
- The dates on which we will pay interest and the regular record dates for determining who is entitled to receive the interest.
- If applicable, the dates on which or after which, and the prices at which, we are required to redeem the Debt Securities or have the option to redeem the Debt Securities.
- If applicable, any limitations on our right to defease our obligations under the Debt Securities by depositing cash or securities.
- The amount that we would be required to pay if the maturity of the Debt Securities is accelerated, if that amount is other than the principal amount.
- Any additional restrictive covenants or other material terms relating to the Debt Securities.
- Any additional Events of Default that will apply to the Debt Securities.
- If we will make payments on the Debt Securities in any currency other than United States dollars, the currency or composite currency in which we will make those payments. If the currency will be determined under an index, the details concerning such index.

4

PAYMENTS ON DEBT SECURITIES

We will make payments on the Debt Securities at the office or agency we will maintain for that purpose (which will be the Corporate Trust Office of the Trustee in New York, New York unless we indicate otherwise in the Prospectus Supplement) or at such other places and at the respective times and in the manner as we designate in the Prospectus Supplement. (Sections 3.1 and 3.2) As explained under "Book-Entry Securities" below, The Depository Trust Company or its nominee will be the initial registered Holder unless the Prospectus Supplement provides otherwise.

FORM, DENOMINATIONS AND TRANSFERS

Unless otherwise indicated in the Prospectus Supplement:

- The Debt Securities will be in fully registered form, without coupons, in denominations of \$1,000 or any multiple thereof.
- We will not charge any fee to register any transfer or exchange of the Debt Securities, except for taxes or other governmental charges (if any). (Section 2.8)

ORIGINAL ISSUE DISCOUNT SECURITIES

If Debt Securities are Original Issue Discount Securities, we will offer and sell them at a substantial discount below their stated principal amount. We will describe Federal income tax consequences and other special considerations applicable to any such Original Issue Discount Securities in the Prospectus Supplement. "Original Issue Discount Security" means any security which provides that less than the full principal amount will be due if the maturity is accelerated or if the security is redeemed before its maturity. (Section 5.1)

INDEXED DEBT SECURITIES

We may issue Debt Securities under which the principal amount payable at maturity or the amount of interest payable will be determined by reference to currency exchange rates, commodity prices, equity indices or other factors. In that case, the amount we will pay to the Holders will depend on the value of the applicable currency, commodity, equity index or other factor at the time our payment obligation is calculated. We will include information in the Prospectus Supplement for those Debt Securities about how we will calculate the principal or interest payable, and will specify the currencies, commodities, equity indices or other factors to which the principal amount payable at maturity or interest is linked. We will also provide information about certain additional tax considerations which would apply to the Holders of those Debt Securities.

CERTAIN RESTRICTIONS

Unless we otherwise specify in the Prospectus Supplement, there will not be any covenants in the Indenture or the Debt Securities that would protect you against a highly leveraged or other transaction involving Emerson that may adversely affect you as a holder of Debt Securities. If there are provisions that offer such protection, they will be described in the Prospectus Supplement.

Limitations on Liens. Under the Indenture, we and our Restricted Subsidiaries (defined below) may not issue any debt for money borrowed, or assume or guarantee any such debt, which is secured by a mortgage on a Principal Property (defined below) or shares of stock or indebtedness of any Restricted Subsidiary, unless such mortgage similarly secures your Debt Securities. A Principal Property is any manufacturing plant or manufacturing facility that we or any Restricted Subsidiary owns, is located within the continental United States and, in the opinion of our Board of Directors, is of material importance to our total business that we and our Restricted Subsidiaries conduct, taken as a whole. The above restriction will not apply to debt that is secured by:

5

- mortgages on property, shares of stock or indebtedness of any corporation that exists when it becomes a Restricted Subsidiary;
- mortgages on property that exist when we acquire the property and mortgages that secure payment of the purchase price of the mortgaged property;
- mortgages that secure debt which a Restricted Subsidiary owes to us or to another Restricted Subsidiary;
- mortgages that existed at the date of the Indenture;
- mortgages on property of a company that exist when we acquire the company;
- mortgages in favor of a government to secure debt that we incur to finance the purchase price of the property that we mortgage; or
- extensions, renewals or replacement of any of the mortgages described above.

A Restricted Subsidiary is a direct or indirect subsidiary of Emerson if substantially all of its property is located in the continental United States and if it owns any Principal Property (except a subsidiary principally engaged in leasing or in financing installment receivables or overseas operations).

The Indenture also excepts from this limitation on liens secured debt of up to 10% of our consolidated net tangible assets. (Section 3.6)

Limitation on Sale and Leaseback Transactions. We may not enter into sale and leaseback transactions involving any Principal Property, except for leases of up to three years, unless

- we could issue debt secured by the property involved (under the limitations on liens described above) in an amount equal to the Attributable Debt which would be calculated under the Indenture based on the rental payments to be received, or
- we pay other debt within 90 days in an amount not less than such Attributable Debt amount. (Section 3.7)

Restrictions on Consolidation, Merger or Sale. We may not consolidate or merge or sell or convey all or substantially all of our assets unless (a) the surviving corporation (if it is not Emerson) is a domestic corporation and assumes our obligations on your Debt Securities and under the Indenture and (b) immediately after such transactions, there is no default. (Section 9.1)

DEFEASANCE

The Indenture includes provisions allowing defeasance that we may choose to apply to Debt Securities of any series. If we do so, we would deposit with the Trustee or another trustee money or U. S. Government Obligations sufficient to make all payments on those Debt Securities. If we make such a deposit with respect to your Debt Securities, we may elect either:

- to be discharged from all our obligations on your Debt Securities, except for our obligations to register transfers and exchanges, to replace temporary or mutilated, destroyed, lost or stolen Debt Securities, to maintain an office or agency in respect of the Debt Securities and to hold moneys for payment in trust; or
- to be released from our restrictions described above relating to liens and sale/leaseback transactions.

To establish such a trust, we must deliver to the Trustee an opinion of our counsel that the Holders of the Debt Securities will not recognize income, gain or loss for Federal income tax purposes as a result of such defeasance and will be subject to Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred. There may be additional

provisions relating to defeasance which we will describe in the Prospectus Supplement. (Sections 13.1, 13.2, 13.3 and 13.4)

EVENTS OF DEFAULT, NOTICE AND WAIVER

If certain Events of Default by us specified in the Indenture happen and are continuing, either the Trustee or the Holders of 25% in principal amount of the outstanding Debt Securities of a series may declare the principal, and accrued interest, if any, of all securities of such series to be due and payable. If other specified Events of Default happen and are continuing, either the Trustee or the Holders of 25% in principal amount of the outstanding Debt Securities of all series may declare the principal, and accrued interest, if any, of all the outstanding Debt Securities to be due and payable. (Section 5.1)

An Event of Default in respect of any series of Debt Securities means:

- default for 30 days in payment of any interest installment;
- default in payment of principal, premium, sinking fund installment or analogous obligation when due;
- unless stayed by litigation, default, for 90 days after notice to Emerson by the Trustee or by the Holders of 25% in principal amount of the outstanding Debt Securities of such series, in performance of any other covenant in the Indenture governing such series; and
- certain events of our bankruptcy, insolvency and reorganization. (Section 5.1)

Within 90 days after a default in respect of any series of Debt Securities, the Trustee must give to the Holders of such series notice of all uncured and unwaived defaults by us known to it. However, except in the case of default in payment, the Trustee may withhold such notice if it in good faith determines that such withholding is in the interest of such Holders. The term "default" means, for this purpose, the happening of any Event of Default, disregarding any grace period or notice requirement. (Section 5.11)

Before the Trustee is required to exercise rights under the Indenture at the request of Holders, it is entitled to be indemnified by such Holders, subject to its duty, during an Event of Default, to act with the required standard of care. (Sections 6.1 through 6.13)

If any Event of Default has occurred, the Holders of a majority in principal amount of the outstanding Debt Securities of any series may direct the time, method and place of conducting proceedings for remedies available to the Trustee, or exercising any trust or power conferred on the Trustee, in respect of such series. (Section 5.9)

Emerson must file an annual certificate with the Trustee that it is in compliance with conditions and covenants under the Indenture. (Section 3.5)

In certain cases, the Holders of a majority in principal amount of the outstanding Debt Securities of a series, on behalf of the Holders of all Debt Securities of such series, or the Holders of a majority of all outstanding Debt Securities voting as a single class, on behalf of the Holders of all outstanding Debt Securities, may waive any past default or Event of Default, or compliance with certain provisions of the Indenture, but may not waive among other things an uncured default in payment. (Sections 5.1 and 5.10)

MODIFICATION OR AMENDMENT OF THE INDENTURE

If we receive the consent of the holders of a majority in principal amount of the outstanding Debt Securities affected, we may enter into supplemental indentures with the Trustee that would

- add, change or eliminate provisions in the Indenture; or
- change the rights of the Holders of Debt Securities.

However, unless we receive the consent of all of the affected Holders, we may not enter into supplemental indentures that would with respect to the Debt Securities of such Holders:

- change the maturity;
- reduce the principal amount or any premium;
- reduce the interest rate or extend the time of payment of interest;
- reduce any amount payable on redemption or reduce the amount of the principal of an Original Issue Discount Security that would be payable

on acceleration;

- impair or affect the right of any Holder to institute suit for payment;
- change any right of the Holder to require repayment; or
- reduce the requirement for two-thirds approval of supplemental indentures. (Section 8.2)

REGARDING THE TRUSTEE

The Trustee is The Bank of New York. The Trustee is a lender to us under our revolving credit agreement. From time to time, we may enter into other banking relationships with the Trustee.

BOOK-ENTRY DEBT SECURITIES

The Prospectus Supplement will indicate whether we are issuing the related Debt Securities as book-entry securities. Book-entry securities of a series will be issued in the form of one or more global notes that will be deposited with The Depository Trust Company, New York, New York, and will evidence all of the Debt Securities of that series. This means that we will not issue certificates to each Holder. We will issue one or more global securities to DTC, which will keep a computerized record of its participants (for example, your broker) whose clients have purchased the Debt Securities. The participant will then keep a record of its clients who own the Debt Securities. Unless it is exchanged in whole or in part for a security evidenced by individual certificates, a global security may not be transferred, except that DTC, its nominees and their successors may transfer a global security as a whole to one another. Beneficial interests in global securities will be shown on, and transfers of beneficial interests in global notes will be made only through, records maintained by DTC and its participants. Each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if such person is not a participant, on the procedures of the participant through which such person owns its interest to exercise any rights of a Holder of Debt Securities under the Indenture.

The laws of some jurisdictions require that certain purchasers of securities such as Debt Securities take physical delivery of such securities in definitive form. Such limits and such laws may impair your ability to acquire or transfer beneficial interests in the global security.

We will make payments on each series of book-entry Debt Securities to DTC or its nominee, as the sole registered owner and holder of the global security. Neither Emerson, the Trustee nor any of their agents will be responsible or liable for any aspect of DTC's records relating to or payments made on account of beneficial ownership interests in a global security or for maintaining, supervising or reviewing any of DTC's records relating to such beneficial ownership interests.

DTC has advised us that, when it receives any payment on a global security, it will immediately, on its book-entry registration and transfer system, credit the accounts of participants with payments in amounts proportionate to their beneficial interests in the global security as shown on DTC's records. Payments by participants to you, as an owner of a beneficial interest in the global security, will be governed by standing instructions and customary practices (as is now the case with securities held for customer accounts registered in "street name") and will be the sole responsibility of such participants.

8

A global security representing a series will be exchanged for certificated Debt Securities of that series only if (x) DTC notifies us that it is unwilling or unable to continue as Depository or if DTC ceases to be a clearing agency registered under the 1934 Act and we don't appoint a successor within 90 days, (y) we decide that the global security shall be exchangeable or (z) there is an Event of Default under the Indenture or an event which with the giving of notice or lapse of time or both would become an Event of Default with respect to the Debt Securities represented by such global security. If that occurs, we will issue Debt Securities of that series in certificated form in exchange for such global security. An owner of a beneficial interest in the global security then will be entitled to physical delivery of a certificate for Debt Securities of such series equal in principal amount to such beneficial interest and to have such Debt Securities registered in its name. We would issue the certificates for such Debt Securities in denominations of \$1,000 or any larger amount that is an integral multiple thereof, and we would issue them in registered form only, without coupons.

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under the 1934 Act. DTC was created to hold the securities of its participants and to facilitate the clearance and settlement of securities transactions among its participants through electronic book-entry

changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations, some of whom (and/or their representatives) own DTC. Access to DTC's book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC. No fees or costs of DTC will be charged to you.

PLAN OF DISTRIBUTION

We may sell Debt Securities to or through one or more underwriters or dealers, and also may sell Debt Securities directly to other purchasers or through agents. Such firms may also act as our agents in the sale of Debt Securities. Only underwriters named in the Prospectus Supplement will be considered as underwriters of the Debt Securities offered by such Supplement.

We may distribute Debt Securities at different times in one or more transactions. We may sell Debt Securities at fixed prices, which may change, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices.

In connection with the sale of Debt Securities, underwriters may receive compensation from us or from purchasers of Debt Securities in the form of discounts, concessions or commissions. Underwriters, dealers and agents that participate in the distribution of Debt Securities may be deemed to be underwriters. Discounts or commissions they receive and any profit on their resale of Debt Securities may be considered underwriting discounts and commissions under the Securities Act of 1933. We will identify any such underwriter or agent, and we will describe any such compensation, in the Prospectus Supplement.

We may agree to indemnify underwriters, dealers and agents who participate in the distribution of Debt Securities against certain liabilities, including liabilities under the 1933 Act. We may also agree to contribute to payments which the underwriters, dealers or agents may be required to make in respect of such liabilities.

We may authorize dealers or other persons who act as our agents to solicit offers by certain institutions to purchase Debt Securities from us under contracts which provide for payment and delivery on a future date.

We may enter into such contracts with commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. If we enter into such agreements concerning any series of Debt Securities, we will indicate that in the Prospectus Supplement.

In connection with an offering of Debt Securities, underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Debt Securities. Specifically, underwriters may over-allot in connection with the offering, creating a syndicate short position in the Debt Securities for their own account. In addition, underwriters may bid for, and purchase, Debt Securities in the open market to cover short positions or to stabilize the price of the Debt Securities. Finally, underwriters may reclaim selling concessions allowed for distributing the Debt Securities in the offering if the underwriters repurchase previously distributed Debt Securities in transactions to cover short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the Debt Securities above independent market levels. Underwriters are not required to engage in any of these activities and may end any of these activities at any time.
