</TABLE>

Oct. '00 Order Comments:

-----  
Industrial Automation continues to be dampened by considerable negative currency exchange. Excluding currency, growth is in the mid-single-digits, and is widespread across the segment operations and geographic regions.

HVAC orders primarily reflect U.S. inventory channel overhang associated with air conditioning products.

Electronics and Telecom orders continue to be very strong. Growth is across all operations, with geographic strength in the United States, Europe, Asia and Latin America.

Appliance and Tools orders reflect appliance-related inventory channel issues that are expected to subside in the second fiscal quarter. Tool-related demand continues to run at mid-single-digit levels.

Process orders reflect continued widespread recovery in the overall global market.
